

Herdins Textile Colour Fixative

Fixative for wash-resistant dyeing with Herdins Textile Colour natural fibre.

PRODUCT FACTS

Article nr

101048

Properties

Fixes the textile dye with the fibre.

Contain

Trisodium phosphate dodecahydrate, Sodium metasilicate pentahydrate.

Package

Bag, 100 g.

Dosage

One package of Herdins Textile Colour fix is intended for dyeing with Herdins Textile Colour natural fibre in a domestic washing machine with a capacity of 3-4 kg. The fixative is dosed depending on the amount of water. Increase the amount of fixative if you dye in a large washing machine. The approximate amount of fixative is 10g per litre of water. Always refer to the instruction manual in Herdins Textile colour natural fibre's package when you use the product.

Handling and storage

Avoid handling which leads to dust formation. Avoid spilling, skin and eye contact.

Keep containers tightly closed. Keep in original container. The product is hygroscopic. Store dry. Keep separate from food, feedstuffs, fertilisers and other sensitive material.

Disposal consideration

Smaller amounts: Confirm disposal procedures with environmental engineer and local regulations of flush to drain with a lot of water.

Bigger amounts: Confirm disposal procedures and leave the product to disposal company.

INSTRUCTION MANUAL

Dyeing in a washing machine
